

# **SAF Investor** New York 2025

23 September 2025

***"THANK YOU SAF INVESTOR FOR CONVENING THE  
RIGHT VOICES"***

***JIMMY SAMARTZIZ, CEO, LANZAJET***

# TESTIMONIALS FROM SAF INVESTOR LONDON

*"A really substantive event with the optimal mix of participants"*

**Christopher Chaput, President, DG Fuels**

*"I wasn't optimistic this morning, but when I see the willingness of conversations here, I am more optimistic!"*

**Geraldine Pic-Paris, Director of Sales EMEA, ATOBA Energy**

*"SAF Investor is the place to be for those who want to be leaders in this fast-growing Industry"*

**Gevo**

*"Definitely one of the best SAF events I've experienced! The size of the conference is just right, allowing for meaningful and quality connections with fellow attendees. The topics were exceptionally well chosen, ensuring that the content was both relevant and engaging"*

**Marcella Franchi, Head of SAF, Haffner Energy**

*"The event was a remarkable success, creating a unique convergence point for investors, SAF producers, airlines, technology providers, government officials, and other key industry players"*

**Noaman Al Adhami, Country Head UK, Alfamar**

# SAF INVESTOR MISSION:

---

---

The widespread adoption of Sustainable Aviation Fuel (SAF) is no longer an engineering challenge.

It is an economic one.

---

New technologies now need to prove they can scale, and the industry needs billions of dollars of capital to have any hope of reaching targets.

---

Investors want certainty. They need to know that: future demand is strong; feedstock supply is stable; the economics of production work; and lawmakers will provide clear, stable regulation.

---

SAF Investor New York 2025 is not about arguing the case for sustainable aviation – it is about bringing the dealmakers together who will make it happen.

---

This one-day conference will be structured with TED-style presentations, interactive panel discussions, Q&A, audience polling, and fireside chats – broken up with plenty of networking time over coffee breaks, lunches and cocktail receptions.

---

Topics will include the economics of different feedstocks; funding R&D; project finance; and how policy can shape markets.

---

**\$36bn-\$46bn of SAF investment  
is required each year  
to reach 2030 targets**

*--Mission Possible Partnership*

## BRINGING TOGETHER:

---

---

Producers

---

End users
