

HI Helicopter
Investor
LONDON 2025

Post Event Report

4TH - 5TH JUNE, 2025 | LONDON

A Note From the Editor

Big thanks to everyone who attended our Helicopter Investor London 2025 conference. On behalf of the whole Helicopter Investor team, thank you for sharing your time, your insights and your passion for rotorcraft.

Whether you were a speaker, a sponsor or a delegate, your contribution helped our conference explore the big themes shaping the helicopter industry of 2025 and beyond. From supporting offshore oil and gas exploitation and search and rescue to emergency medical services, charter operations and navigating helicopter finances plus much more, your help enabled us to take the temperature of an industry in flux.

Over the two days of the conference, lessors, manufacturers, financiers, operators and developers combined their expertise to chart a picture of the changing face of global helicopter operations.

In addition to more than two days of conference sessions, there was ample opportunity to meet old friends and forge new friendships with hours of networking opportunities in the form of cocktails receptions and the inaugural Historic Public House Walking Tour. Thank you to everyone who made this event possible.

Meanwhile, we have already started to plan next year's event. So, if there is a topic you would like to see included, [please let Kazia know](#). We look forward to welcoming you to Helicopter Investor London 2026.
